AUTO-FOCUS

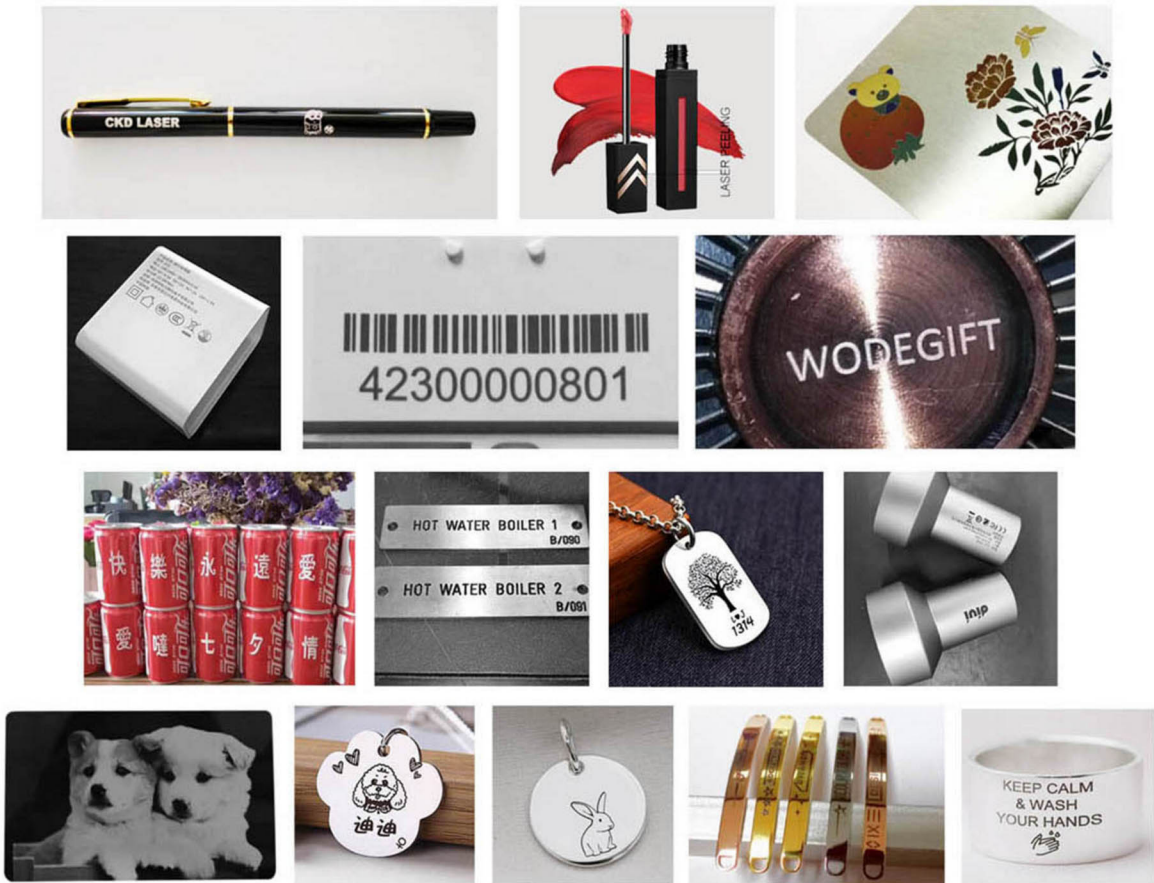

AUTO FOCUS: Put the material on the position board in marking scope, the machine can get right focus by software.

UASER FRIENDLY: No need installation, use directly, with Wifi, can listen music during working, with voice recognition, bluetooth and location functions, work in happiness.

UASER FRIENDLY: No need installation, use directly, with Wifi, can listen music during working, with voice recognition, bluetooth and location functions, work in happiness.

Process products: gift, craft, jewelry, packing box, stationery, hardware, electrical accessories of home appliances, electronic, daily necessities, such as tableware, cosmetics, drinking cups, USB flash disk, pens, etc.

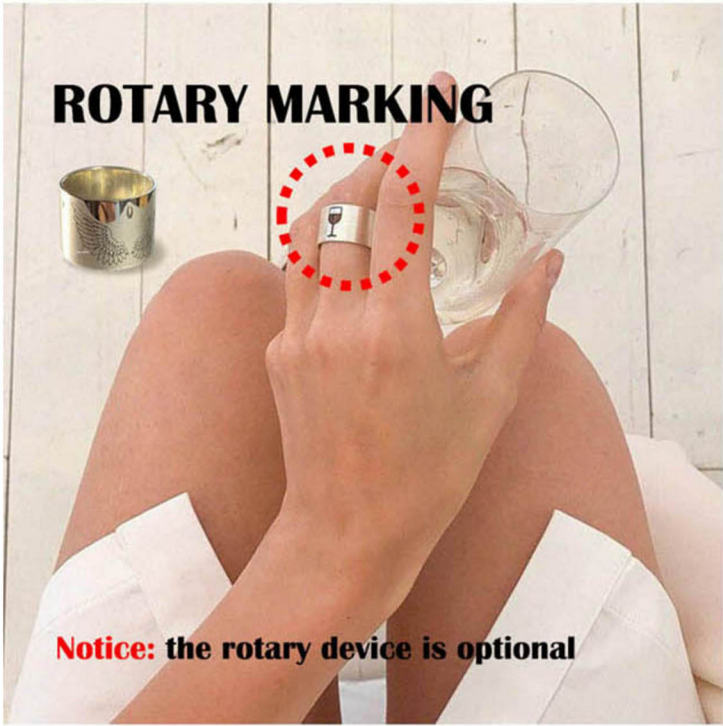

Functions: vector logo mark, bit map print, series number, QR, bar code engraving, rotary marking on ring, or bracelet, or bangle, circle marking on watch cover and so on.

Three dots (1+2+3) overlap to show right focus clearly
More clearly preview (1) outline before marking
No loss of clarity because of long using

More accurate, anti-transformation

Preview **Mark/Engrave**

The preview function is better than other configuration's laser marking or engraving machine, the red light is clearer when preview and no appreciable decay after long time using.

Support rotary marking on rings, accuracy and clarity, no matter how small the jewelry is.

TROUBLE FREE

TROUBLE FREE: Free maintenance, no installation, all-in-on with built-in computer. CKD-PLMA-20/30 can be used for business as well as for home DIY.

NO CONSUMABLES:

Compared with ink printing, laser marking is no need of any consumables of ink, no pollution and environment protection.

CKD-PLMA-20/30 adopts tech to low the noise, no noise pollution for marking work.

The Adopt voltage stabilizer and filter device to strengthen anti-interference.

CONFIGURATION

MOLDE	VERSION	LASER SOURCE	FOCUS WAY	MARKING SCOPE	CONTROL SYSTEM	OPTIONAL PARTS
CKD-PLMA-20	V20.12	Optional: 1. Q-switched 20W 2. MOPA 20W	Both ways: 1. Motorized focus	Optional: 100*100/ 150*150mm	1. Computer 2. Authorized marking software of EzCad2	1. Rotary 2. Protect goggle 3. Position bars
CKD-PLMA-30	V20.12	Optional: 1. Q-switched 30W 2. MOPA 30W	2. Z-axis automatically focus	Optional 100*100/ 150*150/ 200*200mm		

OPTIONAL DEVICE:

CKD-RF07-69J

CKD-RF00-50

CKD-PB01

GM-2000

DOOR TO DOOR

Support door to door shipping by express.
